MFB

Modular Floor Boot

The Modular Floor Boot (MFB) is a premium quality boot designed for ducted raised floor applications or to reduce transmission of noise through the plenum. These boots are used in conjunction with Modular Floor Diffusers (MFD).

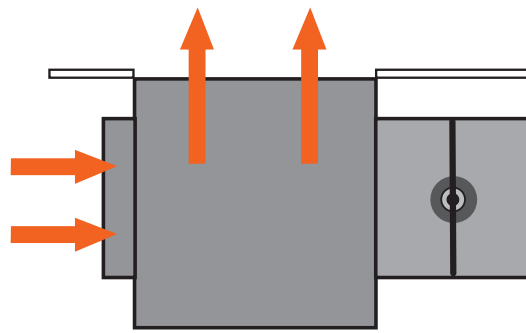

The MFB-F includes a ducted inlet to allow delivery of air through an MFD by an underfloor fan terminal. The MFB-VC has a VAV plenum inlet for modulation of supply air. The MFB-HC combines both of these options, allowing cooling of the space with plenum air through the VAV inlet, and heating through the ducted inlet connected to an underfloor fan terminal.

Modular Floor Boot HC Model with CFlex Cable

MFB-HC in cooling mode

MFB-HC in heating mode

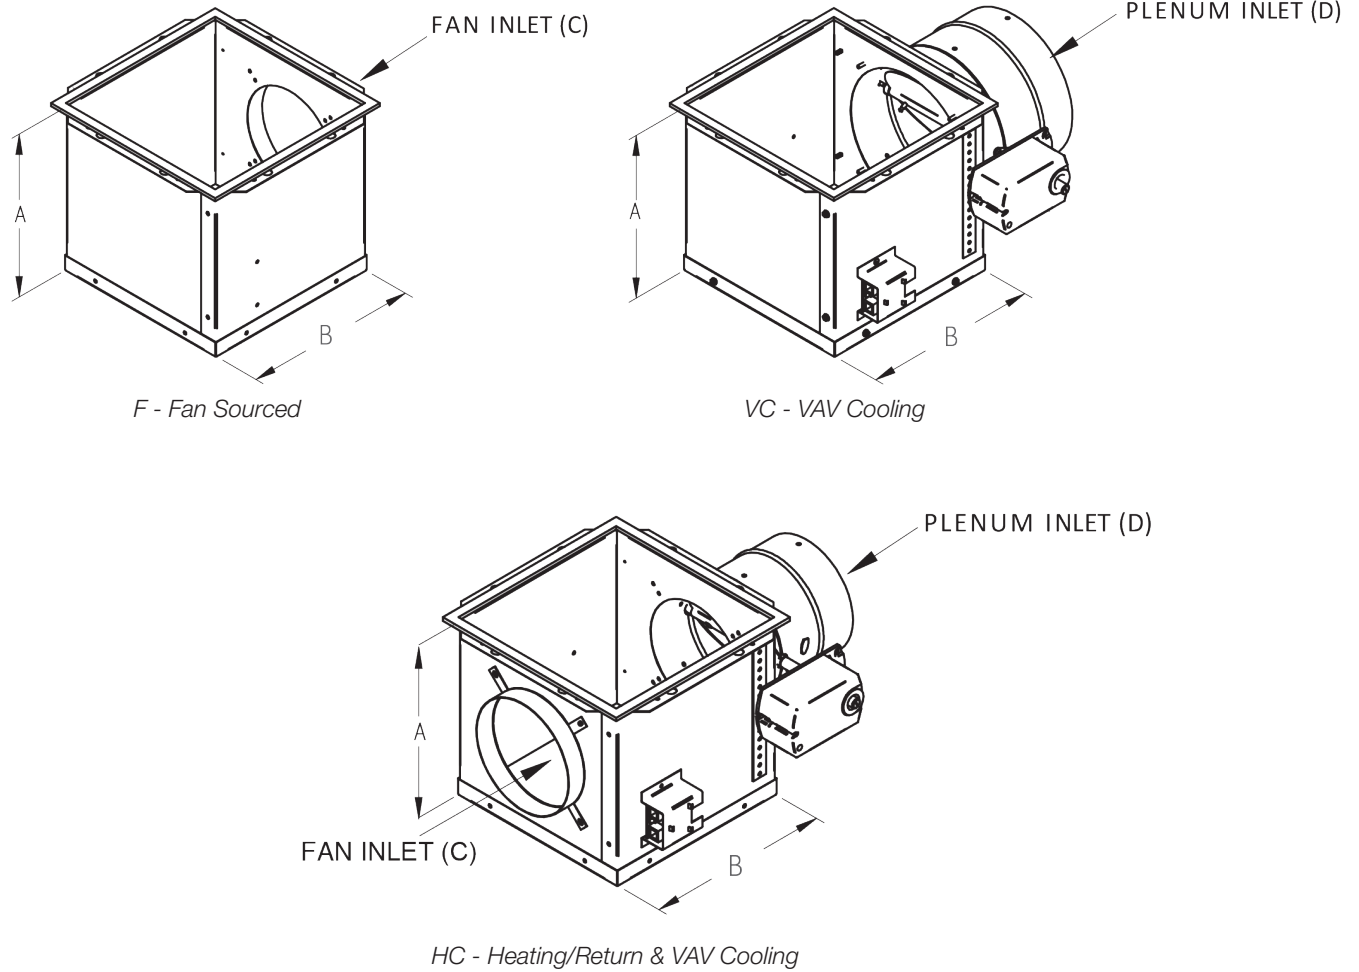

FEATURES

- + Used with modular floor diffusers
- + Overall height allows for cable runs under unit in 12 in. floors
- + 22Ga steel construction
- + Available with acoustical liner

VC & HC MODEL FEATURES

- + Modulating damper for VAV cooling control
- + 24VAC floating point actuator and modular jacks for daisy chain signal control
- + Plenum rated CFlex cable provided for simple connection to the Price underfloor system

DIMENSIONAL DATA

For 8 in. (8B) & 10 in. (10B) Boot Size

Boot Style	Height (A)	Side Length (B)		Fan Inlet (C)		Plenum Inlet (D)		
		8B / 10B	8B	10B	6 in. Duct Diameter	8 in. Duct Diameter	6 in. Duct Diameter	8 in. Duct Diameter
					8B / 10B		8B / 10B	
F - Fan Sourced	9.50	10.00	12.00	5.88	7.88	-	-	
VC - VAV Cooling				-	-	5.88	7.88	
HC - Heating/Return & VAV Cooling				5.88	7.88	5.88	7.88
